PHILADELPHIA Nov 6—The weather to-day is fine and the indications are that a much larger vote will be polled in the state than anticipated by party managers. The contest in this state presents no other issue than the regular one between republican and democratic candidates. On the state ticket are J B Niles rep and Robert Taggart dem for auditor general. Wm Livesey rep and Joseph Powell dem, for state treasurer. The greenback and prohibition parties both have candidates in the field for these places but their vote is so small as not to be a factor in the fight. It is agreed between the leaders on both the democratic and republican sides that all comparison figures shall be made with last year's election for governor. The combined vote of Beaver rep, and Stewart ind will be set against that of Pattison dem so that gains for the democrats to-day will mean as against the full republican vote. The democrats will have to gain some 4000 on the full vote in order to elect their ticket to day. In this city the interest centers chiefly on the controllership. RICHMOND Nov 6—The election in this state is the most exciting since 1869 when the conservative party was organized. Half the senate and the entire house of delegates are to be elected. Neither side however have as yet received information enough to justify any positive statement

RICHMOND Nov 6—A dispatch from Charlottesville says the democrats claim the county by a large majority also that as far as heard from in the state there has been a majority for the democrats. A man from West Virginia was there to-day giving colored men incendiary circulars urging them to vote for the readjusters and resist the whites. An attempt was made to arrest him but he escaped. Leading readjusters denounce his actions

RICHMOND, Nov 6—The democratic majority in this county is 2011. Thirteen cities in the state all show democratic gains except Norfolk

RICHMOND Nov 6—Indications point to a working majority of the democrats on joint ballot. The vote was very heavy and shows gains in the large coalition districts. Mahone loses nearly a thousand in his stronghold

PETERSBURG Nov 6—Mahone claims from reports received up to midnight that the readjuster party has gained four counties and the city of Norfolk and that they will have a continued majority in both branches of the legislature

In Minnesota.

ST PAUL Nov 6—The election in this state to day is for governor lieutenant governor secretary of state treasurer attorney general and railroad commissioners. Each county also elects a portion of their officers. It is a beautiful day and unusually large vote is being polled the main fight being between candidates for governor. The republicans renominated the entire present state officers with Governor Hubbard at the head of the ticket. The democrats nominated for Governor a Norwegian A Bierman. As over one fifth of the republican vote of this state is of that nationality the democrats hope to make a close fight for the office. Governor Hubbard had a majority of 28,000 the last time and now the republicans claim 10,000 for him this time. A few democrats concede him more than 5000

ST PAUL Nov 6—Sixty eight towns heard from in Minnesota up to 10 P M outside St Paul and Minneapolis give Hubbard rep, for governor 2014 majority over Bierman democratic candidate. THE MORMON QUESTION.

Defenders of the Faith Gathering at Washington—Springer Interviewed

CHICAGO Nov 6—[Special]—The Washington correspondent of the Inter Ocean takes the view that important legislation is anticipated on the Mormon question in congress this coming winter. This is evinced by the arrival of numerous stragglers coming from the territory of Utah. These people, who are supporters of the Mormon church and its doctrines have not made themselves prominent by stopping at public houses but have taken private rooms in different parts of the city. They will, during the coming session constitute a powerful lobby against any efforts that may be made toward the demoralization of Mormonism and hostile to polygamy. None of the parties have expressed themselves, or said anything one way or the other excepting Cannon who cannot easily escape interview. His utterances on the subject have already been published. Representative Caine Mormon delegate to congress is here and has settled down to hard work getting the run of things and laying pipe for the campaign. Apostle Richards of Utah is also here but has been very quiet since his arrival. These gentlemen, it is hinted will represent the church of Zion in the national capital during the coming session and will spend neither time nor money to prevent what they term unjust legislation. A prominent Utah citizen said to-day that leaders of the Mormon church are not required to make any return by vouchers or otherwise for money spent for the good of the order. In this new lobby is said to be plenty of cash and cash makes friends faster and surer in Washington than in any other city in the Union

CONGRESSMAN SPRINGER INTERVIEWED

Congressman William M Springer who has been in Chicago some days was asked yesterday what action the house would take with respect to polygamy. "It depends somewhat upon what the Utah commission formed under the Edmunds bill recommends. It is possible they will insist upon an amendment to the law which created the commission. I was called upon by a citizen of Utah (a Gentile) who stated to me that the entire anti Mormon element in the territory would petition congress to abolish territorial legislation and all of the laws it has enacted and petition congress to pass a code of laws for government of the people of that territory placing executive government in a commission consisting of three persons. In fact it would be a similar government to that of the district of Columbia. He said the anti-Mormon element preferred to be disfranchised rather than that power should be exercised by the Mormons. If further legislation is sought continued Mr Springer in the direction of controlling the Mormons and depriving them of political power it must be in that direction for we have done all that we can do except disfranchising them. This commission of three was to be appointed by the president and confirmed by the senate

RAILROAD NOTES

NOTES FROM THE WALL STREET NEWS

NEW YORK Nov 6—[Special]—Wall Street News: The theory in Wall street where the late A B Johnson of Utica was well known is that his suicide was largely due to speculations for a year or two back on the wrong side of the market. He was reputed to be a large holder of American District Telegraph and held considerable Western Union at high prices. He had a great deal of faith in the ability and promises of Villard and was believed to have invested in Northern Pacific and Oregon Transcontinental before their recent sharp decline

Villard's new house at the corner of Madison avenue and Fifty first street is expected far to excel Wm H Vanderbilt's in magnificence. The floor of one room is entirely in mosaic and the adornment of two others is expected to cost not less than $150,000

KIERNAN'S NEWS REPORT

NEW YORK Nov 6—[Special]—Kiernan's News Letter says: The Villard shares were manipulated by Keene. At the opening of the market there was a disposition on the part of room traders to sell stock short but so soon as an interest was shown in Northwest coverings were the order. Total sales in Villard were under 23,000 shares

ROCKDALE Tex, Nov 6—Last night, a few miles out, two men with black faces attacked the house of a farmer named Herman emptying six-shooters at the family who were at supper and then riding away. Walter Herman was shot and is now in a critical condition. The best opinion is that the assailants were white men bent on robbery. The recent excitement over the reported rising of colored people in this county lead some to attribute the outrage to negroes

RECEPTION TO ROBINSON

SPRINGFIELD Mass Nov 6—The reception to Robinson at the Springfield city hall at 10 this evening was a grand pre-election ovation for this locality. He came from Chicopee by special train and was escorted to the hall by a band and the committee. He was introduced as the first governor of Massachusetts ever elected from Hampden county. He could not begin his speech for some minutes because of applause. He spoke less than five minutes saying this contest ends not in the triumph of one man but of the people and that a new party had been created to-day—a party of the commonwealth. The cause was a just one and under the circumstances a triumph was inevitable. Our opponents must feel as a defeat in bringing relief over the irregularities of the present administration which they cannot sanction. We have made a beginning to-day and in future we can go forward hopefully in the endeavor to serve the whole people

As soon as Robinson had finished there was general handshaking for a few minutes and then a people escorted Robinson through the main streets to the depot and as he took the train the band played Auld Lang Syne

MAHONE'S DEFEAT FORESHADOWED

NEW YORK Nov 6—A Post Richmond special says: Voting here to-day has been more active than ever before known in the history of the city. Nearly half of the vote of the city was polled by 11 A M. The colored vote is quite small. Everything is perfectly quiet, and there is not the slightest apprehension of trouble from any district. Indications foreshadow defeat for Mahone even in Monroe county

New York is republican by 20,000

WORCESTER Nov 6—A salute of 100 guns was fired by the republicans to night

THE NEW YORK "HERALD'S" COMMENT

NEW YORK Nov 6—The Herald: A strong republican majority is elected to the next state senate. Probably it will be six in a total of thirty two. The present senate is democratic majority of four. The assembly is in doubt with chances favoring a small republican majority. The present assembly is democratic by more than two thirds majority. Returns from country county show what is very ominous of evil to the democrats next year—that there is a strong republican reserve vote which was not out yesterday

MAHONE HOPEFUL

PETERSBURG Va Nov 6—Senator Mahone says at midnight from returns received the readjuster party gained four counties and the city of Norfolk and that they will have a constitutional majority in both branches of the legislature

PENNSYLVANIA

PHILADELPHIA Nov 7—Complete returns received at associated press office from sixty four to six seven counties in the state give Niles rep for auditor a majority of 16,443

THE CHICAGO "TRIBUNE'S" COMMENT

CHICAGO Nov 6—The Tribune will say editorially: The republican party has much reason to rejoice over the result of the elections yesterday. In Massachusetts Ben Butler a pestiferous demagogue is undone of the most dangerous men lately prominent in American politics is unquestionably defeated. It was not a question of majority in Massachusetts. The defeat of Butler was the object aimed at and it was accomplished in spite of his vile charges against the management of republican institutions. Possibly in consequence of them he was refused a re-election. The issue was on the same lines as he had been seeking re-election as governor on the same lines as Mr Robinson. He had served one term. The usage in Massachusetts gives a second term to the governor whose administration has reflected honor upon himself and the commonwealth. The retirement of Butler to private life is equivalent to censure upon his private and public conduct. It puts an end summarily to Butler's presidential aspirations. The partial victory in view of the enormous majority of 200,000 for Governor Cleveland last year against Secretary Folger is a splendid triumph. It proves that the election last year was not a fair test of the relative strength of the two parties and that New York is still a doubtful state. On the other hand the size of the majorities against some of the stalwart candidates for the legislature removes all doubt as to whether the political sins of Mr Roscoe Conkling have been forgotten or forgiven. It may be doubtful whether President Arthur when he studies the returns will look upon these results with unalloyed satisfaction. Clearly the feeling among republicans in Massachusetts, New York and Pennsylvania is that the party has been punished enough and purified through suffering sufficiently to deserve again the support of the masses of the people

CALIFORNIA

A Radical Temperance Speech.

SAN FRANCISCO Nov 6—Mrs Leavitt the temperance lecturer at a meeting of the International Lodge of Good Templars last night, declared that most of the press and incumbents of offices of trust were either heavy drinkers or enemies of prohibition. She dwelt severely on Governor Butler, styling him an owl eyed blackguard, and the enemy of temperance. President Arthur Mrs Leavitt said, is a very hard drinker. It was a night before he was nominated vice president he would sleep the sleep of the drunkard. [illegible] grog shops in New York. Even now often he complains of afternoon headaches [illegible] whisky that is the trouble. Mrs Leavitt closed her remarks by advocating women's rights and that the obtaining of them would have the effect of producing total abstinence in the land

He thought that either Li's telegram had been misinterpreted, or had been ordered concocted. No revolution is feared at Pekin. HEREDITARY BLOOD POISON

The Hereditary Blood Poison or Scrofula develops in the delicate tissues of the brain mental weaknesses and infirmities, idiocy and insanity. It enlarges the glands of the throat, impairs the sense of smell and taste or breaks into consuming ulcers on the neck. It destroys the lungs, or fills them with tuberculous secretions. It eats away the coating of the stomach enlarges the liver, clogs the kidneys, creates constipation, and induces piles. The muscles it contracts and renders powerless with rheumatism while the secretions of the joints contaminated by it cause the painful gout. It loads the perspiration with its virulent poison, setting on fire in its passage the little tubes or pores of the skin causing the torturing disfiguration salt rheum, psoriasis, and other itching and scaly diseases which embitter life. It gathers at morbid centers into tumors, abscesses, and life-sapping ulcers. It slowly undermines the constitution and is the cause of nearly all chronic diseases.

WEDNESDAY MORNING, NOV. 7, 1883.

YESTERDAY'S ELECTIONS.

Yesterday was rather a cold day for our democratic brethren. The news of this morning will come to them as a suggestion that the presidential election to take place in 1884 possibly was not decided in Ohio last month, as many of the organs had fondly supposed. The state of New York, which went democratic last year by 200,000, now actually gives a large republican majority, and in other states the republican party shows similar vitality and vigor. Butler is defeated in Massachusetts, Connecticut goes republican and New Jersey is close; while all the states which hitherto have had assured republican majorities come again to the front very much in the old fashion. While it would be injudicious in any republican to assert now, as some of their democratic brethren did last month when they heard from Ohio, that the contest of 1884 was already decided, perhaps even the most enthusiastic democratic partisan will now admit that the republicans have at least a fighting chance for next year. As a word of caution it may be well at this early moment to suggest that the pleasing employment of parcelling out the offices to faithful democratic workers, which has been going on here and in all parts of the country for some time past, might well be postponed till the managers can see a little more about it.

BUTLER AND HIS SUPPORTERS.

The interest taken in Butler throughout the country is astonishing. In his candidacy for the governorship of Massachusetts he has had the sympathy and has borne the hopes of all the worthless and dangerous elements of our population. Therefore he has been running in every state in the Union for governor of Massachusetts. As an individual he is of small consequence, but as a politician whose candidacy reveals the presence of so vast a population which, in its instincts, character and purposes, is dangerous to the country, he becomes no inconsiderable figure. He represents the wishes, hopes and aims of all the loafers and bummers of the country; of all who are too idle and dissolute to attain to prosperity, but are envious of the prosperity which others have bought with long and devoted labor; of all who want to be rid of the wholesome restraints of government; of the whole army of cranks, communists, and disappointed office-seekers; of all who hate culture and respectability; of all who rebel against the lessons of history and the experience of the ages and hope to get money or livelihood without earning either in honest and legitimate ways; of all who think that the government ought to take care of everybody and afford plenty for the stomach while the greenback mill furnishes stuff for the pocket; of all who want to pursue lawless callings without restraint of law; in a word, of the vast and increasing multitude among whom discontent reigns, vice flourishes, or ignorance prevails. All this accounts for the supreme interest manifested by so great a number in all parts of the country in Butler's candidacy. It accounts, too, for the instinctive opposition to Butler felt and evinced by decent men all over the country, without regard to party. He is a bad and dangerous man who can unite this whole body of ignorance and discontent and convert it into capital, which he may bank upon in his political enterprises. If such a man can be elected governor of Massachusetts, who can say that he cannot be elected president of the United States. That he can get so big a vote in a state which has hitherto been regarded as one of the firmest and most steadfast in devotion to high principles, and that against the protest of all the better class of both parties, is a revelation of the almost alarming growth of the element which can be combined and led by the coarse, vehement, violent and unscrupulous demagogue who represents it. He seems to be beaten this time for governor, but the magnitude of his vote may well be a study for the intelligence, honesty and decency of the country. Twenty years ago not 20,000 votes could have been mustered in Massachusetts for the system of political debasement represented by the word Butlerism.

A SUGGESTION.

Nearly all cities of considerable size maintain hospitals for the care and cure of the sick. They are, in a sense, charitable institutions, but they receive patients who pay for treatment, as well as those of the poorer sort; and, for all, skillful medical attendance, the best of nursing and the purest medicines are provided. Portland has no such institution. For an important and indispensable public service we have relied wholly upon private benevolence. That the reliance has not been in vain is creditable to the charitable public, but it does not excuse the city for its neglect of a serious duty. Individuals or societies ought not to be burdened with the permanent maintenance of institutions like the St. Vincent or the Good Samaritan hospitals. We should have a city hospital and should have it soon. After the generous career of these asylums for years, it seems almost unkind to say that the only certainty of a proper hospital service is to have it under official direction; but it is the truth, for we can have no assurance that the private institutions will always be in good hands, as they are at the present time. We have not now even a city physician, and when the service of a medical man is needed in the city jail or elsewhere under the city government, the chief of police has to beg the attendance of some physician for sweet charity's sake. Portland is rich enough to pay for every service it requires, and the doctor is as worthy of his hire as other men.

Two religious bodies have recently declined to do special honor to women. The Universalist convention at New York heard a report from old Dr. Zachariah Eddy, urging young men to enter the ministry, and defeated an amendment which proposed to exhort young women as well as young men to that vocation. Rev. Dr. Miner did not think the convention could afford to commit itself in favor of women in the ministry; and after considerable talk—in which the old joke was aired about Eve as "a side issue"—the convention concluded the best thing it could do was not to commit itself against them, and so passed the report with the term "worthy youth" in the place of "young men." And yet a number of noted members of the Universalist ministry are women. The Congregational Association of New York the same day, refused to commend the work of the Woman's Christian Temperance Union. It appears that the women sometimes mingled with their temperance talk an argument for woman's voting—that they declared "objectionable." Mr. Beecher, however, said that all the good in temperance work in the country had been done by women. Still he saw no need of passing any resolution.

The weather during the past two weeks has been highly favorable for farming operations, and the farmers of western Oregon have been putting in the days early and late in the field. An immense area of land has been turned over and the work continues actively. The sowing of fall wheat in the Willamette will be considerably heavier than ever before if favorable weather would continue a few days longer. In many parts of the valley, in Washington and Clackamas counties particularly, there will be a considerable change in the system of farming next season. A good deal of land is being seeded for hay in these localities, and a further effort will be made toward diversification.

We must have agriculture as a basis of manufactures. We shall not have much manufacturing industry in the northwest so long as we bring our food one or two thousand miles.

THE DEMOCRATIC PARTY.

The semi-weekly *East Oregonian*, of the 3d inst., says "this is about the time of the presidential term that a certain class of republican papers are disposed to tell a good deal of truth," alluding to an article a few days before in which we pointed out some of the defects in the republican party, and it closes by saying that "next summer readers of THE OREGONIAN will find no such admissions and assertions. It will try to make people believe that that party is the only thing that will save the nation." Our esteemed contemporary might have added the further remark, with which we closed, that in thus criticising the republican party "we do not mean to imply that the democratic party is any more deserving of the public confidence." Then its readers would have had better means for understanding the position of THE OREGONIAN.

What is the democratic party? Let us consider that question briefly, in order that it may be seen whether we were right in saying that it is not more deserving than the republican party of public confidence. A southern democrat of prominence recently indorsed the assertion that the democratic party has for the past twenty years been camping upon the ground occupied during each previous campaign by the republicans. In the opening speech of the recent canvass in Ohio, Senator Sherman called attention to this notorious fact, and showed that upon every great issue between the two parties the democrats have reluctantly, but none the less plainly, conceded that they were wrong and the republicans right. The democrats have been groping about after the control of the government, pursuing the *ignis fatuus* of office, with no settled policy, with no intelligent purpose, without ideas, inconsistent, timid, vacillating, catching at straws, like drowning men, trying one attitude after another, in the desperate endeavor to reinstate themselves in the offices of the government simply for the spoils. As a party, if left to themselves, they would not now declare or try to make the war for the Union a failure. They would not restore slavery which they attempted the life of the Union to perpetuate and extend; they would not restore the old state bank system; they would not annul the war amendments to the constitution, and they would neither destroy nor inflate the currency of the country. But, during the time these great subjects were under consideration and were open questions in American politics, the democratic party was on the wrong side. The only one of those questions upon which they ever differed among themselves, except in degree and bitterness, was finance, and even then they were all wrong. The eastern wing favored contraction, the western inflation, while the republican party had the good sense to avoid both errors. In the record of the democratic party for at least thirty years, every wise act has been an after thought, suggested by the superior sagacity of republicans. Many of its candidates for high office have been not democrats at all, but republicans off on a tangent, like Greeley, and the last three candidates for governor in Ohio—Ewing, Bookwalter and Hoadly. Its eyes have been in the back of its head. It has not looked forward, but backward, and has not lent a helping hand to a single progressive interest in the country until the caravan of progress had passed it by. This is what it has been. What is it to-day? It seems to be still destitute of political sagacity, if it has any serious purpose to benefit the American people. It is perhaps true that there is a strong probability of a democratic triumph next year, but this rests rather upon republican discontent, such as existed in the last year of Grant's first term, than upon democratic strength. Past experience shows how futile is the hope that is based upon the supposed popular desire for a change. The democrats will not win in the next campaign unless they give some strong and convincing reasons why their party should be restored to power. But so far they have given none. No democratic statesman has outlined a plan by which a check can be placed upon the corporations. They are not agreed as to the disposition to be made of the tariff, or the national banks. The basis of the national banks will shortly be removed through the payment of the government bonds. What will the democratic party provide in their stead, if they are to be abolished, in order to secure perfectly good currency, such as the republican party has given the people? What is to be their policy regarding internal improvements, navigation, civil service, Mormonism?

In the Ohio canvass one of their leading issues was the defeat of Senator Pendleton's re-election because of his efforts to reform the civil service, and they appear to have succeeded. Their candidate for governor in New Jersey, Leon Abbott, has been running on the platform that "those will be rewarded who do the work of the campaign." Their candidate in Massachusetts creates his following by announcing that "the government belongs to its friends." In Utah and the surrounding states and territories the democrats have, up to the present time, voted with the Mormons, and no new policy has been outlined on that issue. The Salt Lake *Tribune* suspects that in view of the result in Ohio, one strong plank in their platform will be "a cry for local self-government, which will mean free beer in Cincinnati, free whisky in Chicago, and free concubinage in Utah." Judging from the past there is no telling what the party will do. At present it is supporting in Massachusetts a man who has been pronounced by a southern democratic organ, "the type of all that is mean, false, brutal and despicable in man." And yet this organ says, "if by any freak of insanity a democratic convention should nominate him for president it would support him." Last April, the party supported for governor of Rhode Island a man of utterly disreputable character, the representative of Butlerism, and only 707 democrats protested against the scandalous nomination. In these adjoining states they are following this year men who were fitly characterized by Edmund Burke "as a species of men to whom a state of order would become a sentence of obscurity;" men who "are nourished into a dangerous magnitude by the heat of intestine disturbances, and it is no wonder that, by a sort of sinister piety, they cherish in their turn the disorders which are the parents of all their consequence."

The democratic party since the war has labored under two serious disadvantages which have never, so far as we are aware, been generally recognized, although they have caused the whole series of defeats the party has suffered. The first of these arises in the south, from the inability of the southern people to estimate the patriotic, Union-loving sentiment of the American people. This sentiment has a depth and warmth and permanency in the hearts of the people which the leaders of the southern democracy are unable to appreciate. The second of these disadvantages arises in the north, from the fact that the war attracted to the republican party supporting the war, almost the entire progressive element of the northern people, the ambitious, energetic, enterprising and smart young men, and left for the democrats stranded hulks, fogies, reactionists, the unsagacious, the half and half element, the men who cannot go out in the woods after dusk without seeing bears, the men who thrive on calamities, who frequent graveyards, and are "the friends of an early frost." The result has been that the republicans have had the men of *esprit*, men of sagacity and courage. They have had some men who were too smart, and this has been the cause of most of the republican disasters. Still the democrats suffer from these disadvantages, and it is a serious question whether they will be able to overcome them in season to grasp the prize they have set before them. Republicans often criticise their own party, because they have reason to do so, but the democratic party must show itself to be more deserving than it has yet been before these republicans will support the democracy.

THE SLEEP AND THE AWAKENING.

If the truth must be told about the necessity that compels the importation of meats, fruits, vegetables, eggs, butter and pretty much all other articles of food into Oregon from California and the eastern states—and truth-telling on a matter of so much importance has become imperative—then it must be said that a great many people here who own land, and others who ought to own land since it may be had for the taking, are shamefully lazy. If a judicious observer were asked what, in his opinion, this country needs most, there is reason to fear that he would answer, "A proper number of well appointed funerals." The sarcasm would need no explanation. The country has too many sluggards. Habits of careless and lazy living, formed during the long period of our isolation, will, in case of many, perhaps most, never be changed. There are men who own large tracts of land of which they make little use, nor ever will make more, who must be borne with while they live, since they never will add much to the activity or industry of the country; and there are others, not land owners, also in the days of old acquired habits of indolent, shiftless and hand-to-mouth living, and will continue the same to the end of their lives. The country must grow without the assistance of these unprogressive classes; it must even carry them as dead weight. But there is a goodly portion even of its old population who are active, intelligent and enterprising, and these are being rapidly reinforced by arrivals from other states. A country naturally so fruitful as this cannot long be compelled to bring from abroad almost everything that goes down the throats of its people except their drinking water. It is a reproach to it that it is compelled to do so now. Oregon has been settled longer than Minnesota; it is an older American community than California; and the state, in many natural resources and advantages, is far more favored than either. It can beat them in every important product of agriculture. How long, then, will it be forced to depend on them for the food it consumes? There must be an awakening, and it can't come too soon.

It is worth while to look at the work in progress on the old Central block. The foundation for the new hotel has been made solid as the eternal hills. No work of the kind has been done in Portland before in a manner half so substantial. The solidity as well as the magnitude of the foundation naturally lead to reflections highly gratifying to the holders of corner lots. Said a visitor from one of Portland's many rivals a few days ago: "That hotel foundation scares me. It is being built to stay, and it is being built for the future by the men who largely control Portland's future. Such buildings have place only in big cities." It is gratifying to see the straws drifting the right way.

Through the generous enterprise of a few individuals, Portland has, at last, a permanent and creditable place of burial. The advantages of the River View cemetery are well set forth in another column. The location is all that could be desired, and the site will never be required for other purposes. Messrs. Failing, Corbett and Ladd spared no expense in laying out the ground and properly ornamenting it, and they have turned it over to the cemetery association for precisely what it cost them. It has been remarked that people exhibit their state of civilization in their care for the dead, and upon this theory we shall now appear in much better light than formerly.

The law taxing corporations in New York, enacted by republicans and administered by a republican controller, has yielded progressively increasing results year by year, beginning with $992,725 for 1881, the first full year, going the next year to $1,529,684, and this year doubling the first with $1,935,179. This makes a total (with the eight months of 1880, $141,127) of $4,608,715. The most remarkable feature of the administration of the law, however, is that the nearly two millions yielded by it this year cost, for collection, the insufficient sum of $2100. It is an excellent law.

The republicans appear at the best advantage in the Pennsylvania deadlock. The democratic house rejects a legislative re-districting bill for which every republican and every democrat present voted in the senate. The house and the republican senate are at loggerheads upon the congressional re-districting, practically as to a single congressman, with an even chance that whichever party gets the district will lose it half the time when elections come. And for only this the state pays $3000 a day.

The council has been talking over the improvement of West Park street for nearly a year. To every scheme of improvement proposed there is some objection, and the council is specially cautious because half of the charges will fall on the city. But in the meantime, the street is going to rack and ruin. It is worn in great ruts and the sidewalks in many places are in shameful condition. Something ought to be done or certain sections of the street should be fenced in.

Murch, who was once an honest stonecutter in Maine, got a bad start down hill when he was elected to congress as a greenbacker. He is going to open a grog-shop on Essex street, Boston, and will continue to demagogue for one cause or another, while dealing out fiat whisky.

It seems that Capel, like most other foreigners, came to this country to make money. Oscar Wilde was over head and ears in debt before he came here; and even Matthew Arnold says (if he is truly reported) that he hopes to make money enough here to "retire."

It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. BREACH OF PROMISE SUIT —Judge Stott yes [illegible] the defendant in the Woods Davis [illegible] of promise suit until Saturday next to file a [illegible] for a new trial This is but a matter of form [illegible] himself has no hope of setting aside the [illegible] verdict against him in the state circuit [illegible] He will, however be sure to make an appeal [illegible] supreme court, for $4000 is too large a sum to [illegible] without a struggle In charging the jury [illegible] took other grounds than that the young [illegible] prospects in life had been injured by the [illegible] of the doctor who had failed to make her [illegible] He charged that, if the jury found the [illegible] guilty of a breach of promise of mar[illegible] they ought render a verdict in favor of the [illegible] for an amount sufficient to punish the de[illegible] It was this that the jury did While or[illegible] it might be forgiven for one changing [illegible] in regard to marrying no one has patience [illegible] and, therefore, when Dr Davis went [illegible] question popping business by the whole[illegible] he placed himself liable to the condemnation of [illegible] most hardened sinners. Some people hav[illegible] at the singular attraction which the [illegible] seemed to find in making love to innumera[illegible] a few words of explanation seem [illegible] During the progress of the trial [illegible] developed the fact that whenever [illegible] became engaged to a new sweetheart he [illegible] an almost constant boarder at her house, [illegible] as yet known he invariably constituted his [illegible] recompense therefor From [illegible] inferred that Dr Davis was neither [illegible] or so very sentimental but an em[illegible] man of the world The fewer of [illegible] the better, and the general opinion is that [illegible] of the trial is just as it should have been [illegible] is to be congratulated, not only for not [illegible] Davis, but also for having so effectually [illegible] the error of his ways Her attorneys [illegible] & McGinn, feel confident that the full [illegible] of the judgment can be collected

But Joe kept his eyes downcast [illegible] conversed with his counsel, John M [illegible] and seemed wholly indifferent to the place [illegible] everything that was going on around him [illegible] cases were disposed of the charges [illegible] of larceny by bailee were taken up [illegible] District Attorney Mulkey Gearin for [illegible] made a little speech to the court in [illegible] that his client was ready for an ex[illegible] in the case against him of embezzlement, [illegible] Celia Levy Mr Mulkey replied that [illegible] upon examination that the complaint [illegible] Levy had not been properly brought, [illegible] he had understood that Bachman would [illegible] examination upon the other three charges [illegible] by bailee, if that were done he would dis[illegible] charge of embezzlement. "I don t believe [illegible] examination upon any of these charges [illegible] "I suppose the same bonds will be [illegible] hold my client to answer before the [illegible] "I don't know whether they will or [illegible] Judge Moreland "Well if they are [illegible] we know and we will furnish more and [illegible] accompanied by his attorney passed out with [illegible] "How d'ye do to his former depos[illegible] friends. Celia Levy was not pleased at [illegible] affairs had taken and lost but little time in [illegible] Mr Mulkey so He explained the difficulty [illegible] will undoubtedly bring another charge of [illegible] by bailee instead of embezzlement In the [illegible] court Bachman s attorneys filed demur [illegible] the complaints of S L Beary and H S hust [illegible] which are civil suits Argument in the [illegible] will probably be heard to day

That s all right, then call the [illegible] your honor " And so Mr Thompson who [illegible] sorry at having so rudely cut short the [illegible] paid his fine and went home But Mrs [illegible] whose Christian name is Emily has had [illegible] of married life already although her certifi[illegible] dated 1883, and later in the day she filed [illegible] in the state circuit court praying for a decree [illegible] upon the ground of brutal and inhuman [illegible] and citing the above case in point

INTERESTED CHINESE —It is singular what numbers of Chinese attend the police court each day Why they are there no one can say and they would probably find it hard to explain it themselves Not one in a hundred of them understand a word that is said and it must be either the peculiar pictures of degraded humanity that daily line the prisoners' dock or the gesticulations of excited attorneys in the heat of debate that attracts them At all events they take as much interest in the proceedings as a white man does in a Chinese theater

THE RIVER VIEW CEMETERY.

Its Advantages Set Forth—An Important Public Institution

From advance sheets of a pamphlet about to be issued by the River View Cemetery Association we have been permitted to take the following which appears as an introduction addressed to the public"

Although the following pages containing the by laws and rules of the River View Cemetery Association, together with a copy of the law under which it is incorporated may furnish all necessary information respecting its organization and management it appears to [illegible] trustees not improper to lay before the public some [illegible] the views and hopes which led to the [illegible] of the work and the labor and care which have attended its progress to the present time

It has been the desire of those interested in this work to provide a suitable burying place which should possess every desirable feature [illegible] may be mentioned [illegible] shall be sufficiently [illegible] from the limits of the city [illegible] apprehension of interference by [illegible] should [illegible] natural beauty with a [illegible] improvements [illegible] for all [illegible] wants and [illegible] should be suitable for the purpose

[illegible] has resulted in the selection of a tract [illegible] the Willamette river [illegible] Rector Campbell [illegible] about 200 acres

The grounds [illegible] natural [illegible] and [illegible] in the best possible manner the [illegible] of the work [illegible] the natural beauties of [illegible] served and [illegible] judicious [illegible] completed affords ample [illegible]

With [illegible] description [illegible] county [illegible] from [illegible] attention of the public [illegible] upon for sale

II Permanency [illegible]—It is [illegible] though [illegible] many that the last resting place of their friends and of themselves may be allowed to fall into decay or might [illegible] that the ground which [illegible] their remains may ever be diverted to other uses, every provision [illegible] which tends to give permanence and security to the cemetery itself or to the graves within its enclosure will meet with general approval with this end in view the persons interested in this work have carefully studied and compared the rules and arrangements [illegible] all the principal cemeteries of the United States and also the views and experience [illegible] in such matters

Additional legislation being needed to enable them to carry out their plans an act of the legislature was passed at the session of 1882 making all the provisions [illegible] necessary Under this act and the by laws adopted in pursuance thereof the association is enabled not only to give the lot holder a perfect title to his lot with all the usual privileges including exemption from taxation and execution and a complete guaranty against disturbance or violation of graves but it makes provision for the future care and protection of every grave within its borders

In many of the old cemeteries of our country are seen frequent instances of neglected and overgrown lots and graves Various causes contribute to this state of affairs but the effect is always [illegible] To avoid it a plan has been in many cases adopted of inviting contributions and bequests from lot holders to form a fund the income of which shall be forever devoted to the care of [illegible] lots and graves While this is perhaps the best measure that can be taken in the case of an old organization it is thought that a plan of setting aside a portion of the purchase price of every lot to form an irreducible fund the income of which shall be devoted to the perpetual care of such lot is a great improvement attention is particularly called to the provisions in the law for the creation and protection of this fund

III A proper system of improvement and embellishment—It cannot be denied that the old method of improving lots by surrounding them with fences or walls has an unpleasing effect there is in all parts of our land a growing sentiment in favor of abolishing all fences hedges and ditches as well as the custom of raising a mound over every grave and marking it with a headstone they all contribute to destroy that park like appearance so desirable in such a place

By a study of the rules governing the cemeteries which have become models it will be seen that all those established at a comparatively recent date have by their by laws and regulations forbidden such improvements while with [illegible] the older ones although [illegible] authorized to forbid or prevent them all [illegible] by suggestion and advice to discourage them

A single monument in each lot with shrubbery and foliage is everywhere considered preferable The cost of a wall and gravestones will be better invested in a central monument and the contribution to the general beauty will be much greater The grounds of the RIVER VIEW CEMETERY have been laid out with especial reference to this manner of improvement and the rules governing these matters have been framed accordingly

IV An entire absence of the element of profit —In the whole history of this work from the purchase of the ground to the present time the idea of an investment for speculation or profit has had no place The original projectors of the work have expended of their own means a large sum of money in the purchase of the ground and the services of a competent architect the cost of laying out the grounds the erection of buildings and various important and expensive improvements have involved the outlay of a much greater sum a careful account of these expenditures has been kept and upon the formation of this association the entire property has been formally transferred to it for a price which exactly reimburses them for their outlay

The association itself is effectually precluded from doing its business with a view to profit to itself or to its trustees or members no trustee can receive any compensation nor can there be any division of profits among members but after payment for the land all receipts for lots or otherwise must be appropriated to the care and improvement of its grounds

Aside from their excellence there is economy in buying Dr Price s Special Flavoring Extracts as the bottles hold one half more than others purporting to hold the same quantity They are the most natural flavors made and in strength quality and quantity there are no other flavoring extracts that can compare with Dr Price s

Captain H. W. Dunham and A. J. M. Campbell have purchased the old steamer *Coos*, which they will repair and put into service on the bay.

Oregon Sentinel: An attempt to break jail was made this week by Mellville, charged with larceny, but was checked in time by the interference of the jailer. None of the other prisoners assisted in the attempt to gain their liberty.

The *Coast Mail* says Captain Dale has developed an eight-foot vein of coal in the Northern Pacific mine at Coaledo, about six feet of which is marketable and of an excellent quality. The new development is about a quarter of a mile south and east of the old workings.

A Chinaman robbed the store of Stephens Bros. on the Siskiyous the other day and was locked up on that charge in the Ashland calaboose. While incarcerated there he made an attempt to burn it down, but the fire was discovered in time by the city marshal and very little damage resulted.

The Pioneer black sand mines at Randolph have been worked during the summer with success, although the tailings only have been worked. The pay streak of black sand is the richest yet discovered and is practically inexhaustible and the water sufficient for the proper working of the mine.

Gross value of property, $563,855; indebtedness, $111,256; exemption, $60,278. Total taxable property, $392,251. Number of polls, 547. The poll tax is $1 each, and the remainder is apportioned as follows: State tax, 5.9 mills, $2197 16; school, 4 mills, $1569 40; county, 13 mills, $5100 56; Crescent City wagon road, $941 74; total, 25 mills. The tax amounts to $10,855, an increase of $767 19 over last year's total assessment.

Washington Territory.

The disease known as "black leg" has attacked the cattle in the vicinity of the lower Yakima, and one man is said to have lost some fourteen head of calves from the effects of the disease.

Signal: From parties who have just returned from the lower Yakima we learn that the land on either side of the river between the falls and Morgan's is being rapidly settled up. A number of new houses are being built and farms improved at Rocky ford. The outlook for that section is very favorable, and judging from the present indications it will not be long before the most of the desirable land in that vicinity will be taken up and improved.

Edward F. Eddings, deputy postmaster at Vancouver, died Monday morning of heart disease. Deceased was born in Vancouver, January 20, 1856. At the age of 18 he took the position of deputy postmaster, under his father, in which capacity he served until the time of his death. Last Saturday he received the nomination for treasurer of the city, and the election polls were to have been opened at 9 o'clock yesterday morning. He was a member of the order of Knights of Pythias, and was highly respected by all who knew him.

SALEM NOTES.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

SALEM, Nov. 6.

J. H. Chapman and Miss Sarah Banks were married in this city yesterday, Rev. F. P. Berry officiating.

The burial of Helen, only child of Judge and Mrs. J. B. Waldo, took place yesterday, Rev. F. P. Berry officiating. The funeral was private.

The pupils of the Oregon mute school paid the blind school a visit on Saturday last, and manifested a great interest in the workings of the institution.

Union service will be held in the Christian church on Thanksgiving day, Rev. F. P. Berry of the Presbyterian church having been selected to deliver the sermon.

Mrs. Lizzie Hazleton, an insane patient at the asylum, committed from Umatilla county, died this morning, this being the first death since the removal of the patients to this city.

The Mrs. Finlayson who was murdered near Albany yesterday was a sister of Mrs. W. F. Boothby of this city, who last evening went up to render any assistance in her power to the bereaved family.

The county court of this county will to-day examine and recommit some eight or ten patients now in the insane asylum of this city whose commitment papers were either never issued or they have been misplaced.

Some of the prominent members of the Alka-Hesperian Literary Society of this city are canvassing the idea of the early organization of a dramatic club, to be conducted in connection with their society. The plan meets with very general approval.

Advices received yesterday from Rev. J. Taylor Chambers rector of the Episcopal church of this city, announce his departure for home from Indianapolis on Thursday next, reaching here in time to officiate at the services of Sunday, the 18th inst. He will be accompanied by his wife.

The Astoria Printing and Publishing Company have filed articles of incorporation in the office of the secretary of state, with A. W. Berry, James W. Welch, J. Ruddock and C. J. Curtis as incorporators. Capital stock, $10,000. Object, to edit and publish a daily and weekly newspaper in that city.

C. H. Monroe, proprietor of Reed's hotel, took a new departure yesterday by discharging all his Chinese help and filling their places in the kitchen with German women from the Aurora colony, they cooking their first meal last evening to the entire satisfaction of a house full of guests. This is dealing with the Chinese question in a practical and, no doubt, successful manner.

George W. Fletcher, for some time past an overseer of the convict labor in Goldsmith & Lowenberg's mammoth stove foundery, at the penitentiary shops, has resigned his position and will to-day start for San Francisco, where he will take up his future residence. W. T. Latourette, for many years an attache of the Oregon penitentiary, will assume the duties of overseer in the shops.

FATAL PARALYTIC STROKE.

A. Fraser, the well known tailor of this city, was attacked by a stroke of paralysis last evening while going from his shop to his home in north Salem. He was found lying in front of the office of the City of Salem Company, and taken home. A physician was summoned, and at last accounts his condition was considered extremely critical, one side being wholly paralyzed and the patient being unable to speak. Later—Mr. Fraser died during the night.

TRADE AND COMMERCE.

TUESDAY, Nov. 6.

The arrival of the steamer and a rather exciting grain trade has contributed to a busy day. On the manifest of the steamer appears 25 pkgs tea and 325 sks beans for St. Paul, and 77 bales wool to Hecht Bros., Boston. These shipments, particularly the wool, create much comment, and show that there is either cutting in rates or favorable contracts. The railroad situation is certain to soon show an interesting turn unless checked by new pooling arrangements. In order to ship wool to Boston via this city some inducement must be held out to the shipper for he generally does not care to have his goods undergo two extra handlings without pecuniary consideration. Complaints have reached here from an eastern house that a certain line of goods were being sold cheaper than San Francisco would sell them, and proposing an advance in Portland prices. Koshland Bros have almost finished the baling and shipment of half a million pounds of wool, and by the str Bode there arrived a hide press, which will doubtless be placed in operation. From the Puyallup section to-day was received 12,615 lbs hops for S. F. Tobias, London, and one lot for New York to go overland. F. M. Warren sends 975 cs salmon to New Orleans, J. W. & V. Cook 641 cs to New York and Hapgood & Co. 620 cs to Philadelphia. There is a large movement in rail freights both ways. Latest rail receipts here include 6 cets bacon, 3 tubs 5 cs butter, 100 kgs 80 cs syrup, 441 cs lard, 80 bbls sugar, 62 cs canned meat, 5 cs maple sugar, 333 cs canned goods, 18 bbls pork, 25 cs 230 crts mince meat, 30 sks seed, 3 cs 38 crts hams, 350 cs canned corn, 25 cs yeast powder, 50 kits fish, 10 bbls pigs feet, 3 cs extract, 1 cs baking powder, 121 cs pickles, 30 cs sauce, 12 cs cheese, 20 bbls 25 cs eggs, 3 cs cod, 20 kits mackerel, 58 bbls lard oil, 100 csks beer, 749 kgs nails, 2 cs cigars, 181 pkgs tobacco.

Elections were held to-day in several eastern states, including New York, which will account for the non-receipt of stock and grain quotations from New York and Chicago.

FREIGHTS—The ship Imperial, wood, 1338 tons, has been closed to Balfour, Guthrie & Co., terms private. Common report says she got 40s, U. K., Havre or Antwerp, which is the lowest rate paid since the charter of the Saranac, last February. Whether the charter belongs to this week or last is not stated, and her offering last Saturday may have been but a feeler. The Henry Failing, a large wooden ship, is reported taken at San Francisco at 32s 6d, Liverpool. If this is a yesterday's charter she secured a better rate than last reported from that port. Our spot tonnage is now reduced to 14,194 tons, including 1180 iron, but there is a few disengaged vessels near at hand. The advance in wheat abroad is more than swallowed up by a similar advance here and ships cannot get the benefit as yet.

WHEAT—Foreign markets show an increased firmness, with nearly all quotations a turn dearer. This afternoon off coast cargoes advanced a sixpence, and prompt shipment from a sixpence to one shilling. Our market is very active as far as competition and its consequent advances are concerned. There is not much doing on the spot, but shippers wanting round lots are bidding up. Recent limits sent into the interior are being raised, and the market wears something of a panicky appearance. It is said that $1 70 could be had to-day for round lots of valley on wharf, and $1 72 was bid for free on board. These offerings are for round lots now here. For smaller parcels $1 65@1 67½ is quoted. Eastern is quoted at $1 57½@1 60, but the above remarks will also apply to this variety, the usual difference considered. The situation is almost entirely due to active competition, aided by the better turn abroad. Cargo sales are beginning to be reported, and English advices report the sale of a valley cargo, iron, September loading, at 46s 6d, and an eastern cargo, wood, for prompt shipment to Antwerp, at 44s.

FLOUR—Market excited by increased cost of wheat, and a further advance is not improbable.

OATS—Receipts include 2036 centals territory, to Corbitt & Macleay. The market is steady, with good undertone.

WOOL—A sale of a few bales mixed qualities is noted, at 16½ cents. Shipments from San Francisco, through Portland for Boston, is the latest variety of wool movement.

HOPS—Stocks continue to accumulate.

BUTTER—Market is again weakened by larger receipts.

EGGS—Steady at 45@47½c.

PRODUCE RECEIPTS—Past twenty-four hours: 9317 ctls wheat, 1450 bbls flour, 2106 ctls oats, 419 ctls bran, 206 ctls millstuff, 668 sks potatoes, 11,153 lbs hides, 53 cs eggs, 24,511 lbs hops, 104 bxs fruit, 10 bxs butter, 175 bls hay, 300 bbls lime. Also, 15,455 ctls wheat, 325 bbls flour, from the eastern section.

AYER'S

Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured.

It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the VIGOR is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

MR. C. P. BRICHER writes from *Kirby, O., July 3, 1882*: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the *McArthur (Ohio) Enquirer*, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The VIGOR is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

MR. ANGUS FAIRBAIRN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from *Boston, Mass., Feb. 6, 1880*: "Ever since my hair began to give silvery evidence of the change which fleeting time procureth, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

MRS. O. A. PRESCOTT, writing from 18 *Elm St., Charlestown, Mass., April 14, 1882*, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the VIGOR, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

BEWARE

of the continued use of mercury and potash for the treatment of Blood and Skin diseases—they never cure, and nearly always injure or totally ruin the general health.

A WELL KNOWN DRUGGIST.

My drug store was the first to sell Swift's Specific. It was then put up in quart bottles, which sold for $5 each. I have seen a great many cases cured by its use, and some who had tried all sorts of treatment. In fact I have never known it to fail when taken properly. I sell a large quantity of it, and for all diseases that are dependent on blood poison or skin humor, it cures

Pimples or Blotches on the Skin,

And makes the complexion fair and rosy. As for blood taint, there is no such word as fail. It cures cases that have long withstood other sorts of treatment, and without any of those recurring troubles that generally follow mercurial and other so-called cures.

T. L. MASSENBURG, Macon, Ga.

DRY TETTER.

For years I was afflicted with Dry Tetter of the most obstinate type. Was treated by many of the best physicians; took quantities of mercury, potash and arsenic, which, instead of curing the tetter, crippled me up with mineral poison and rheumatism. The tetter continued to grow worse, and the itching almost made me crazy. In this condition I was induced to take Swift's Specific, and the result was as astonishing as it was gratifying. In a few months the tetter was entirely well, the mercurial poisoning all out of my system, and I was a well man—and due only to Swift's Specific. All like sufferers should take it.

JAMES DUNNING, Louisville, Ky.

WHAT A PHYSICIAN SAYS.

CYPRESS RIDGE, MONROE CO., ARK., July 23, 1883.

I have a bright little daughter who will be two years old next month. She has been troubled nearly ever since her birth with a skin disease, which I first diagnosed chicken-pox, but later found it to be some sort of eczema: at any rate it resisted very stubbornly all the different treatments. I procured one bottle of Swift's Specific and gave it to her in small doses three times a day, and in a short while had the satisfaction to see that she was entirely well. I am so well pleased with its effects on her that I shall not only use it in my practice, but I shall administer it to my other children and take it myself.
